

Brite Boards

reusable presentation
& display boards

**No mounting,
No laminating
ever again ...**

Lightweight, inexpensive, single or double sided. Just peel the flexible plastic cover from the Velcro lined backing, insert your presentation and re-seal. **10 seconds or less!**

We love these boards. Why? Because they're such a great idea. No more mounting, no more laminating. And they're completely reusable. Change displays and presentations in a snap. In fact 10 seconds or less. Easy? Just peel the flexible front portion from the Velcro lined rigid back, insert your displays and reseal. Heavy glare resistant cover is bordered in Black or Royal Blue and protects displays from being torn or written on. Write-on and wipe-off with Sanford Low Odor markers. Nine board sizes to choose from. Custom sizes, custom colored borders and logo inserts are available. Most boards weigh just 2 lbs or less and are available single sided or double sided. Boards are easily transportable with optional carrying cases.

Now you can easily create the same uniform look no matter where you display your materials. Brite Boards are virtually unbreakable. And best of all, they last for years with proper care. Strong, rigid plastic backing offers owners versatile options like displaying boards on an easel, hanging from a wall or ceiling, or even mounting permanently to a wall.

No mounting, no laminating, no hassels!

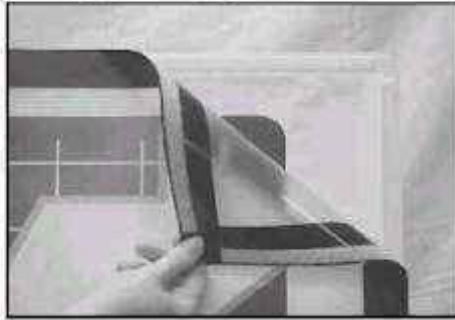

Simply change
one display....

to the next ...

by doing just this!

Great for attorneys with courtroom displays, office building décor, hotels, hospitals, retail point of sale, schools churches & sales presentations. Our Brite Boards will save you

tons of money by eliminating the labor, materials, & time spent attaching each display to a backing. **Sending out your material & waiting?** Not anymore! And, best of all, you can reuse our boards over & over again. Great for office décor too. **Keep the same uniform look** throughout your office, cubicles, elevator interiors, door displays, walls, etc.
